EVERY BOTTLE TELLS A STORY

Behind every bottle, there is far more than just wine.
There is a face, a gesture, a land, a conviction.

For more than 20 years, we have travelled through vineyards, meeting the women and men who shape wine, observing their practices, commitments, and evolution.

We have seen the market change.
Consumer habits evolve.
Expectations transform.

But one thing has never changed: the power of human connection.
Because behind every authentic wine,
there is always a story worth sharing.

An invitation...
To slow down. To look differently. To feel.

What if the bottle could finally tell its story?
THE ENCOUNTER STARTS HERE.

EVERY BOTTLE TELLS A STORY

THE VINESSEN SPIRIT

We believe wine is far more than a product. It is a meeting.

For the past two decades, we have selected, supported, and introduced wines crafted by passionate and committed men and women.

We have learned to recognise what truly makes the difference: the authenticity of a gesture, the sincerity of an approach, and the precision of a wine.

THE WORLD OF WINE IS EVOLVING

Today, wine is no longer simply chosen. It is understood, experienced, and lived.
Consumers are looking for meaning, connection, and transparency.

OUR ANSWER

That is why we imagined a new way to discover wine. A more direct, more vibrant, and more human approach.

.

THE EXPERIENCE

By scanning each bottle, you access its story. The winemaker speaks to you. The terroir reveals itself. The wine expresses itself. Tasting then becomes something else entirely: a shared moment.

GR VINS
ELEGANTS PAR NATURE

GR VINS was born from the meeting of two oenologists from the Southern Rhône Valley: David Risoul (technical director and consultant) and Emmanuel Gagnepain (consulting oenologist in the Southern Rhône Valley and Corsica). Their shared desire to create a range of wines from distinctive Mediterranean terroirs, combining freshness and minerality, gave birth to GR VINS.

CHÂTEAU LA HAUTE BRANDE

In 1887, the first member of the Boudigue family purchased the land and house that would later become Château La Haute Brande.
The name comes from the local term “brande”, referring to heather, and “haute” because the vines are planted on the highest plots, in contrast with “Basse Brande”.
Passed down from father to son and remaining entirely family-owned, the estate is now managed by the fourth generation.

MOLTÈS

Stéphane & Mickaël

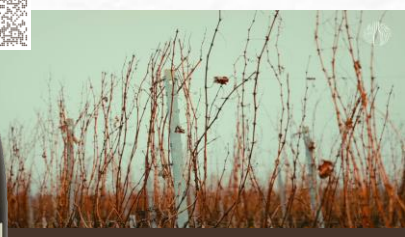

At Domaine Moltès, wine is above all passed down through gestures and time.
For many years, the Moltès family cultivated its vineyards almost like a garden, following the rhythm of the seasons and village life in Pfaffenheim.
Even today, this artisanal approach remains: each plot is worked patiently and humbly, with the desire to let the wine tell the story of the people who craft it, generation after generation.
